

# UNEEKO UNDERGROUND TOILET

Patents Apply

The UNEEKO Underground Toilet is a single unit containing both an enclosed toilet cubicle and a sewage processing system. The patented technology in this unit delivers a range of advantages to the user:

- No smell
- Flushing toilet
- Private cubicle
- Male and female friendly
- Cubicle light
- Antiseptic handwash
- Easily cleaned
- Requires air connection only
- Can stay underground for one year
- 'Splashback' from bowl eliminated
